FYSVRT and BHO Alignment Project Follow Up Tina and Andrea 1:30 – 1:45	Additional survey was sent out after the January 27 Statewide FYSVRT meeting to provide an opportunity for members to respond anonymously to the questions posed at the January meeting. The report including the additional information was received by DBHR just before this meeting started. DBHR leadership planning to look at the additional results in the next week and are considering extending current FYSVRT contracts. Question received from the community: Are the RSN's responsible for maintaining FYSVRTs as of June 30, 2018? How the Governance Structure is contracted is not directed through the TR Settlement Agreement.
